

ESACH MEETING 2019 CALL FOR PROPOSALS

ESACH
EUROPEAN STUDENTS'
ASSOCIATION FOR
CULTURAL HERITAGE

Dear ESACH Members, Young Professionals and Researchers in the field of Heritage,

- according to the aim of strengthening the interplay within our network,
- in relation to the belief of the necessity of Interdisciplinary approaches and constant ideas' exchange,
- in line with the objective to concrete, at least, once a year our virtual connection,

We would like to invite you to answer to this call for the **SECOND ESACH MEETING** which will take place the at the **University of Genoa**, the 3rd - 4th - 5th of October 2019

Once concluded our first year of existence within the European Year for Cultural Heritage, and after having ascertained the growth potential, the intention is to extend the project beyond 2018. The meeting will be the occasion to discuss about new objectives, improvements, welcome potential new members and, above all, to share our researches and projects.

Our meeting wants to be an international conference that will bring together emerging professionals and researches from all over Europe, involved in the investigation and the enhancement of Cultural Heritage.

The aim of the meeting will be to provide participants with an open space of discussion about recent topics concerning Heritage, that will arise from all the contributions.

We are looking for proposals from young professionals and students who have a project or perspective to be shared and discussed with others.

Contributions about recent debates within the field of Cultural Heritage are welcomed, especially presentations going towards the following categories.

→ Investigation and Enhancement

→ New Technologies and Humanities

→ Education and Mediation towards Communities

In order to build our program, we would like to receive proposals for session of 20/30 minutes duration, while the second part of the meeting will be organized as a participative and interactive discussion about matters emerged.

Those wishing to participate, are invited to **provide proposals of contributions** at the following address

icg.esach@gmail.com

With the following information

→Name(s), academic and contact information

→Name of your session

→An outline, short (ca. 550 words) but as detailed as possible; in which you state which themes, questions you want to address and the goals

→A short motivation as to why you want to participate in the conference

All the organizational aspects, such as travel and accommodation expenses will be covered by the University of Genoa to a maximum of **ten speakers** who will be selected by the organizational committee.

Trusting in your enthusiasm and hoping to receive high participation, we invite you to answer within the 27th of May 2019, in order to advance with the selection and bureaucratic procedures.

The common language of the event will be English, and the Acceptance's Notification will take place within the 10th of June 2019

ABOUT ESACH

ESACH is an inter-university and cross-border network whose main objective is the interdisciplinary collaboration among European university students (BA, MA, PhD) and young professionals in the field of Cultural Heritage.

Inspired by the announcement of the European Year of Cultural Heritage, Esach was established in 2017 thanks to an idea of a group of students at the University of Passau, and today has become the first interdisciplinary and cross-generational network in the field of Cultural Heritage at European Universities.

Esach's statement is to contribute to a more conscious sense of belonging to the European community, towards the reconnection of the concepts of Culture and Heritage as a stimulus for contemporary developments.

The University of Genoa has been recently included within ESACH Network and the research group is now developing a project for the enhancement of a historical neighborhood, which has a strongly stratified history. The meeting will be for us the occasion to collect external and different perception of this neighborhood and feedbacks about our project's development.

For further information don't hesitate to contact us.

All the best!
